METHODOLOGY

The data for this self-reporting assessment was collected between February and April 2014 based on data collected by member organizations in the 2013 calendar year. The information includes data ranging from January 1 - December 31, 2013. The data was collected using jotforms.com. The original questionnaire was developed by the Research Committee for the 2012 Assessment, and was reviewed and revised in January of 2014.

LIMITATIONS

The data collected in this report is information collected from the members organizations of the National Multicultural Greek Council. All of the data collected is self-reported. For this report, eleven of the twelve member organizations responded to the research questionnaire.
